

Fastway Jack Foot

Stop the hassle of carrying and storing blocks of wood! The Fastway® Flip™ automatic jack foot drops into place as you extend your jack, and automatically tucks up out of the way as you retract your jack. Quickly and easily adds 6" to your existing 2" (inner tube dimension) tongue jack! There are no pins to pull or insert; no more bending or kneeling down in the gravel; and do-it-yourself installation takes about five minutes. Make towing your trailer faster and easier with the Fastway® Flip™. Fastway-Faster, Easier.

Fastway Jack Foot

SALE \$34.99
REGULAR \$42.59

The "Jack" Antenna

Compact design with built-in amplifier replaces Sensor® antenna head for better reception of new digital channels. Installs in minutes without special tools. Combine with King-Dome™ to get maximum, multi-directional coverage of local off-air digital and HD channels.

Jack Antenna
